## Make-Up Lessons

Take a two hour make-up lesson with Krystina where you'll learn the basic but important aspects to create a flawless day make-up look. Learn easy tips and tricks that will transform your early morning make-up routine in half the time. Krystina will then teach you how to easily transform your day look into an evening make-up using only 2-3 different products to get that desired smoky eye or dramatic lip. Bring your personal make-up kit along so Krystina can go through what you may need, what you need to get rid of and most importantly how to utilize the products you already have so you know how to properly use your products.

Krystina will do one half of your face step-by-step, then you will do the other half so you can fully understand how to create the look when you're in the comforts of your own home.

Once the session is over Krystina will follow-up with a personalised face chart so you can refer back to the exact steps needed to create both the day and evening look.
